Gang of First-class Granite Cutters on Monumental and Vault Work

Our plant is equipped with the following sanitary and healthful devices: Drinking water supplied through bubblers and systematically cooled during warm weather. Up-to-date lavatory inside the main building. Grindstone dust thoroughly removed by suction fan. A six-foot electrically driven fan fills the plant with pure heated air during cold weather, thus making it almost free from dust. A record of over five years without losing an hour on account of heat or cold.
